## G4 to G5 : First Periodic Test May 2023

Dear Parents  
Greetings!

As we approach the first round of assessments for the academic year 2023-24, I want to take this opportunity to wish our students all the very best.

This is an important time for each one of our students as it sets the tone for the rest of the year. I hope all the children have prepared well and are ready to put their best foot forward. It is pertinent to remind each child that a good start is essential for a smooth academic year ahead. This first round of assessments is an opportunity for our children to showcase their knowledge and skills. It is also an opportunity for them to identify their strengths and weaknesses. By doing so, we can work on their weaknesses and improve upon them.

I encourage you to approach these assessments with a positive attitude and confidence in your child's abilities. Let them believe in themselves.

Please remember, Self- esteem of a child is of far greater importance than anything else in the world.

It is also important to remember that these assessments are not the only measure of your child's success. These exams are just a part of the journey towards achieving their goals.

So, my message for our children is, "do your best, learn from your mistakes and keep working towards your goals".

In order to facilitate the smooth conduct of the exams and to ensure there is a less burden on the children, we have kept the quantum of the syllabus very minimal for the exams which is in commensurate with the total syllabus. Also the question paper is designed in such a way so as to accommodate more and more objective type questions that are not based on a day's rote learning but on the fact how well children have grasped the content over a period of time.

I would suggest, approach these exams with a take-it-easy mindset and analyze the child's grasping power rather than overburdening the child a day prior to the exam with loads of anxiety.

May all our children achieve great success and reach new heights with an open mind. You can reach out to me for any query/suggestion at [principal@americanpublicschool.com](mailto:principal@americanpublicschool.com)

Warm Regards

**Roopali Kudesia**  
Principal
