## WELCOME TO THE NEW ACADEMIC SESSION 2024-25 AT AMPS

Dear Parents,

Greetings!

As we embark on this journey together, I extend my best wishes to everyone for being an integral part of our AMPS family. The start of a new session brings with it a sense of excitement, opportunity and the promise of growth for our students. It is with great enthusiasm that we look forward to the upcoming year filled with learning, exploration and achievements.

At AMPS, we believe that our successful partnership between your home and our school is essential for the academic growth of our children. I encourage you to be actively involved in your child's educational journey. Your support, encouragement and constant engagement play a pivotal role in nurturing their academic, social and emotional development.

Throughout the year, we will provide numerous opportunities for you to participate in your child's education, whether through Parent-Teacher Meetings, school events, volunteering opportunities, or simply by staying informed about their progress and activities. Your presence and involvement not only enrich your child's educational experience but also strengthen our school community as a whole.

As we strive for excellence in education, I assure you that our dedicated team of experienced teachers is committed to providing a safe, nurturing, and inclusive learning environment **where children are important** and they can thrive and reach their full potential under the able guidance of our learned faculty.

Together, let us work hand in hand to inspire, support and empower our students to become lifelong learners and responsible global citizens.

Should you have any questions, concerns, or suggestions please do not hesitate to reach out to me on my email ID: [principal@americanpublicschool.com](mailto:principal@americanpublicschool.com)

Your feedback is important to us as we continue to strive for improvement and excellence in education. Once again, on behalf of the entire AMPS family, I welcome you to the new academic session 2024-25 at AMPS.
