Section

Name of the Child

The school will try to provide transport facility, but offers no guarantee of a seat if the buses are full. The Parents have to select the nearest bus stop from the route well-defined and must not make any changes without the permission of the school.

I fully understand that the acceptance of Registration fee does not mean guarantee of admission by the school. Admission will be granted to the child only when suitable vacancy arises and the child is eligible for admission according to the school criteria Also the registration fee is non refundable even if the child is not admitted in the school.
